The Data Subject may request Normawood Kft. to erase their personal data in writing through the contact details provided in Section 2. Normawood Kft. will not comply with the erasure request if the personal data are required by law to be stored and the statutory data processing (data retention) period has not expired.

If, however, there is no such obligation, Normawood Kft. will process the Data Subject's request within a maximum of one month and will notify the Data Subject of the erasure by sending a letter to the contact details provided by the Data Subject.

The Data Subject may also erase the data provided during the registration on the Normawood Kft. website (see: Section 4.7), of which the Data Controller informs the Data Subject by sending a message to the e-mail address provided by the Data Subject.

#### 9.4. Right to blocking (restriction of processing)

The Data Subject may request in writing, through the contact details provided in Section 2, that their personal data be blocked by Normawood Kft. The blocking is done by clearly indicating the limited nature of the processing and by storing the data separately from other data. This means that no processing operation other than storage may be performed on the data. The blocking lasts as long as the reason indicated by the Data Subject requires the blocked storage of the personal data.

For example, the Data Subject may request the blocking of personal data if they believe that their personal data have been unlawfully processed by Normawood Kft. however, it is necessary for the purposes of official or judicial proceedings initiated by them that the personal data are not erased by the Controller. In such a case, Normawood Kft. keeps the personal data blocked until the authority or court requests it, and erases or continues to process the personal data after the end of the official proceedings.

#### 9.5. Right to data portability

The Data Subject may request, in writing, through the contact details provided in Section 2, that Normawood Kft. make available their personal data processed on the basis of the Data Subject's consent [Article 6 (1) a) of the GDPR] or for the performance of a contract [Article 6 (1) b) of the GDPR] in a structured, commonly used, machine-readable format.

If otherwise technically feasible, Normawood Kft. will, at the Data Subject's request, transfer the personal data directly to another controller designated in the Data Subject's request.

The right to data portability under this Section does not create an obligation for data controllers to implement or maintain technically compatible data processing systems.

If the Data Subject's right to data portability adversely affects the rights and freedoms of others, in particular the business secrets or intellectual property of others, Normawood Kft. is entitled to refuse to comply with the Data Subject's request to the extent necessary.

#### 9.6. Right to objection

The Data Subject may object in writing to the processing based on a legitimate interest of the controller or a third party [Article 6 (1) f) of the GDPR], through the contact details provided in Section 2. The Data Subject may object to the processing, for example, if Normawood Kft. were to transfer or use the personal data for the purposes of public opinion polling or scientific research without the Data Subject's consent.

Normawood Kft. investigates the Data Subject's objection within a maximum of one month and notifies the Data Subject of the outcome (including notification of the erasure of any personal data that may have been unlawfully processed) by sending a letter to the contact details provided by the Data Subject.
